

Science Extra Credit Assignments

Due: 03/08/10

Directions:

Choose one of the following assignments to complete for extra credit. Assignments will count as a Quiz grade.

Option 1:

Create a 3-Dimensional model of the Earth's Structure including the following layers:

Crust, Lithosphere, Atmosphere, Lower Mantle, Outer Core, and Inner Core.

Complete a brief write-up to accompany your model explaining the features and processes present at each level.

Option 2:

Using a popular song replace the lyrics so that they describe the different layers of the Earth OR the different types of tectonic plate boundaries. You should submit an audio copy of the song you choose with your lyrics and be prepared to share it with the class.
