# Measurement Quiz Corrections

**Directions:** To correct your measurement quiz follow the directions for each part of the quiz and complete them below.

## **Part 1 Definitions:**

Directions: For each incorrect answer re-write the vocabulary word with its correct definition and write an additional sentence explaining why you got the question incorrect.

## **Part 2: Label the Drawing:**

Directions: Draw a triple beam balance and correctly label the items you missed.

## **Part 3: Reading a Triple Beam Balance:**

Directions: Write a few sentences explaining how to correctly read the measuring device and then correct the question.

## **Part 4: Unit Abbreviations and Conversions:**

Directions: Correct the problem and show work.

## **Part 5: Short Answer:**

Directions: Write the question and then answer it correctly. Write one additional sentence explaining what confused you about this question.
